NEW DELHI 3 (INDIA) ;
The 12th February 1951.

S. P. JAIN,
for Registrar General, India.

NATIONAL SAVINGS

CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

REMARKS

The figures of births and deaths shown in this statement for week ending the 20th January, 1951, relate to 145 towns with an estimated population of 18,352 thousands. The total number of towns is 234 and their population is 29,017 thousands. Thus 62% of the total number of towns representing 63% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 12,507 and 6,537 representing birth and death rates of 35.4 and 18.5 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 125 towns with an estimated population of 15,586 thousands. Information about Assam, Bihar, Madhya Pradesh, Punjab, and West Bengal could not be included. The total number of towns is 202 and their population is 25,187 thousands. Thus 62% of the total number of towns representing 62% of the total population is covered. The numbers of births and deaths recorded in these towns were 11,117 and 5,763 representing birth and death rates of 37.1 and 19.2 per

thousand of population respectively. The table at the end gives the position by States.

The towns of Cuttack and Puri in Orissa recorded high death rates of 55.7 and 52.0 per thousand of population respectively. In Cuttack the high death rate was mainly due to the high number of deaths from smallpox. In Puri, the high death rate was not due to any on the specified causes but deaths from fevers were considerably high.

(B) States (Part B).—The data here relate to 20 towns with an estimated population of 2,766 thousands. The total number of towns is 32 and their population is 3,830 thousands. Thus 63% of the total number of towns representing 72% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,390 and 774 representing birth and death rates of 26.1 and 14.6 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
